3 **SECTION 1. PHYSICAL EDUCATION FOR PROGRESS.**

4 Title X of the Elementary and Secondary Education
5 Act of 1965 (20 U.S.C. 8001 et seq.) is amended by add-
6 ing at the end the following:

1 **“PART L—PHYSICAL EDUCATION FOR PROGRESS**

2 **“SEC. 10999A. SHORT TITLE.**

3 “This part may be cited as the ‘Physical Education
4 for Progress Act’.

5 **“SEC. 10999B. PURPOSE.**

6 “The purpose of this part is to award grants and con-
7 tracts to local educational agencies to enable the local edu-
8 cational agencies to initiate, expand, and improve physical
9 education programs for all kindergarten through 12th
10 grade students.

11 **“SEC. 10999C. FINDINGS.**

12 “Congress makes the following findings:

13 “(1) Physical education is essential to the devel-
14 opment of growing children.

15 “(2) Physical education helps improve the over-
16 all health of children by improving their cardio-
17 vascular endurance, muscular strength and power,
18 and flexibility, and by enhancing weight regulation,
19 bone development, posture, skillful moving, active
20 lifestyle habits, and constructive use of leisure time.

21 “(3) Physical education helps improve the self
22 esteem, interpersonal relationships, responsible be-
23 havior, and independence of children.

24 “(4) Children who participate in high quality
25 daily physical education programs tend to be more
26 healthy and physically fit.

1 “(5) The percentage of young people who are
2 overweight has more than doubled in the 30 years
3 preceding 1999.

4 “(6) Low levels of activity contribute to the
5 high prevalence of obesity among children in the
6 United States.

7 “(7) Obesity related diseases cost the United
8 States economy more than \$100,000,000,000 every
9 year.

10 “(8) Inactivity and poor diet cause at least
11 300,000 deaths a year in the United States.

12 “(9) Physically fit adults have significantly re-
13 duced risk factors for heart attacks and stroke.

14 “(10) Children are not as active as they should
15 be and fewer than 1 in 4 children get 20 minutes
16 of vigorous activity every day of the week.

17 “(11) The Surgeon General’s 1996 Report on
18 Physical Activity and Health, and the Centers for
19 Disease Control and Prevention, recommend daily
20 physical education for all students in kindergarten
21 through grade 12.

22 “(12) Twelve years after Congress passed
23 House Concurrent Resolution 97, 100th Congress,
24 agreed to December 11, 1987, encouraging State
25 and local governments and local educational agencies

1 to provide high quality daily physical education pro-
2 grams for all children in kindergarten through grade
3 12, little progress has been made.

4 “(13) Every student in our Nation’s schools,
5 from kindergarten through grade 12, should have
6 the opportunity to participate in quality physical
7 education. It is the unique role of quality physical
8 education programs to develop the health-related fit-
9 ness, physical competence, and cognitive under-
10 standing about physical activity for all students so
11 that the students can adopt healthy and physically
12 active lifestyles.

13 “(14) Every student in our Nation’s schools
14 should have the opportunity to achieve the goals es-
15 tablished by Healthy People 2000 and Healthy Peo-
16 ple 2010.
